

# Threat AID (Assessing Imminent Dangerousness)

Resources for communicating risk of mass or targeted violence

## *Institutional contacts*

Institutional threat management or workplace violence team \_\_\_\_\_

Clinic / hospital security \_\_\_\_\_

Risk management or legal team \_\_\_\_\_

Patient relations \_\_\_\_\_

Local law enforcement \_\_\_\_\_

Local threat management team \_\_\_\_\_

## *References for local / state policies*

Extreme Risk Protection Order (ERPO) Law \_\_\_\_\_

Tarasoff / Duty to Warn or Protect \_\_\_\_\_

Other civil protective orders available \_\_\_\_\_

Emergency psychiatric evaluation and admission statutes \_\_\_\_\_

Privacy laws / PHI sharing beyond HIPAA \_\_\_\_\_

***HIPAA is not intended to be a barrier to threat assessment and management.***

If a patient makes a “serious and imminent threat” of violence, PHI can be disclosed that is necessary to prevent or lessen the threat and is made to a person(s) reasonably able to prevent or lessen the threat.
